## Reciprocity Bill to Have Ways Cleared for Immediate Passage.

MOBILIAN 3435-72AY

### Chairman Underwood Believes in Reducing Woolen Sched- ule 30 to 50 Per Cent.

WASHINGTON, July 3.—A lively clearing of the ways for the passage of the unamended Canadian reciprocity bill by the voting down of the Cummins and Simmons amendments, and continued discussion and action on other provisions in connection with the bill, will keep the Senate busy all week, while the House, which will meet Wednesday and quickly adjourn until Saturday, will be active only in its committees.

The amendments proposed by Senator Cummins of Iowa, insuring re-

publican, which would add steel, iron, coal, lumber, wool, cotton and other products to the free list," and the amendments proposed by Senator Simmons of North Carolina, Democrat, are somewhat similar in nature. These are expected to be howled over tomorrow.

After voting on these amendments the Senate will proceed with the consideration of the tariff bill.

amendments by Senator LaFollette and others. The proceedings tomorrow will begin with a set speech by Senator Simmons in support of his own and Senator Cummins' amendments, followed by the roll call on the amend-

has been raised, and friends of reciprocity will watch for attempts to intersperse the vote with speechmaking, which they will interpret as the institution of a filibuster. Dilatory tactics will be met with such acts of coercion as the majority might decide would expedite business.

Mr. Cummins has indicated that he will ask for separate votes on all his amendments and has said he would demand at least a dozen roll calls. Mr. Simmons will not be as insistent.

Senator LaFollette said he probably would present amendments on Monday or Tuesday. As soon as they are printed he will take the floor and probably will speak for several days in explanation and advocacy of them. His speech is regarded as the most formidable obstacle in the way of a vote on the bill and senators generally

said that with it out of the way predictions regarding a final vote will be more reliable. In addition to Mr. LaFollette and Mr. Simmons, Senators Bailey, Stone, Jones and Clapp and others are still to be heard.

The Democrats will demand votes on one or two of their tariff bills, but will not debate them at length. The insurgent Republicans are divided on this item of policy, but most of them

The general sentiment, however, is that the extra session of Congress will end early in August.

The House probably will hold a short session Wednesday and then adjourn until Saturday, having little or no business before it until the next session.

schedule is ready. The Democratic members of the ways and means committee will resume the work of framing that revision on Tuesday. The leaders contemplate a reduction of

MONDAY, JULY 10, 1914.

## THE SUMMER CARNIVAL

THREE weeks from today on July 31 the Colorado Springs Summer Carnival will begin. It will continue for an entire week and all doubters are hereby notified that it will be the biggest and best affair of its kind ever held in Colorado Springs. We are aware that this is a broad claim, for both the Quarto-Centennial celebration of 1904 and the Pike Centennial of 1906 were noteworthy events. But the committees in charge of the Carnival have put in an immense amount of hard work in the last three months, and now they are able to look forward to the success of their efforts with reasonable certainty.

Last spring when The Gazette proposed a celebration to commemorate the fortieth anniversary of the founding of Colorado Springs and the thirty-fifth anniversary of the admission of the state to the Union, there were some who questioned the feasibility of the plan on the ground that the money could not be raised. It was feared that the canvass would conflict with that of the Dry Farming Congress, for which a much larger sum must be obtained. Therefore it is gratifying to report that the Committee has had very little difficulty in securing the necessary funds. Scores, even hundreds, of subscriptions have been received, many of them without solicitation, and the long list of business men who have contributed to the enterprise shows that the merchants realize the benefits which Colorado Springs will derive from the celebration.

The principal feature of the Carnival will be a two-days' aviation meet with two of the crack Wright bird-men as the star performers. Flights will be made, rain or shine, and nothing short of a cyclone will mar this feature of the celebration. A Wild West show with real bucking bronchos of the outlaw variety will be another prominent feature of the Carnival, and in addition there is to be a civic and pioneer parade, an automobile flower parade, and a masked ball. And to give a distinctively Western flavor to the whole affair there will be present and participating in the parades several hundred United States troops and Indians from the reservations.

The moral of which is, save your money for the Summer Carnival. It will be worth seeing, not once but every day as long as it lasts.

## SAVING THE PENNIES

FOR several months there has been no little discussion in the magazines and newspapers of the so-called "scientific management," a system of business administration put forward by Frederick W. Taylor of Philadelphia as the fruit of many years' experience. Boiled down to essentials, scientific management means making it worth while for the employee to increase his output in even greater ratio than the increase of his wages. However, the system is so comprehensive that Mr. Taylor has written two books to explain it in detail, and he asserts, that its general adoption by the railroads and manufacturing corporations would completely revolutionize American industry.

In reply to this several prominent railroad executives have declared that they have nothing to learn from Mr. Taylor as to means of increasing the efficiency of their organization. But just the same it is noteworthy that since the discussion of scientific management began, several of the important railroad systems have redoubled their efforts to make every dollar do one hundred cents worth of work. For instance the Pennsylvania Railroad last week issued a general notice to its employees telling them what it would mean to the company if each man would manage to economize to the extent of only 10 cents a day. This notice is so unique that it is worth quoting in full:

"The necessity for a reduction of expenses at this time is very urgent. In addition to the excess of the national economy in the use of material by all employees, the working time should be watched very carefully by trainmen and conductors in order to avoid overtime whenever possible. In fact every employee can assist in some way in accomplishing the desired reduction in expenses. As a practical illustration: If every one of the 1,400 employees on

this division would save 10 cents a day for the company it would mean a total saving of \$140 a day, or in the month of April, of \$4,200, which would go toward paying the increased rates of wages which we are now enjoying. How easy it would be for such employees to do this in his own line of work—economy in the use of oil; firemen in the use of coal; clerks by economy in the use of stationery and by avoiding errors; trackmen in gathering up old bolts and spikes; shopmen by doing their work properly and thus avoiding breakdowns on the road; warehousemen by loading freight so as to avoid damage; and all employees in many ways which will occur to them in the intelligent performance of their respective duties. Remember the old adage: 'What is everybody's business is nobody's business'; and let each employee make it his personal business to join in this laudable effort."

The inevitable tendency in the management of all large industrial concerns is towards just such economy as is aimed at in this notice. It is said that the profits of the packing industry are now made on products which formerly were discarded as waste. There is as much truth as humor in the familiar joke to the effect that when a pig goes through a packing house nothing is lost but the squeal. In the beginning of the industry only the meat was marketed; now literally everything is utilized, the blood, the bones, the hair, and even the undigested food in the stomach is manufactured into fertilizer.

One may be tempted to deride seemingly petty economies in business, but often they mean the difference between profit and loss. Germany has won its present commanding position as a manufacturing and exporting nation largely by reason of its adoption of such methods, and the United States can well afford to follow her example.

## OPEN PARLIAMENT

TO the Editor of The Gazette:  
The undersigned having had years of experience in municipal public improvements, and more especially street paving, begs leave to take issue with Judge C. D. Hart, representing the Central Traction company of New York, and the Colorado Springs Traction company.

Referring to your issue of the sixth instant, Judge Hart is quoted as saying that making an assessment for paving purposes the city places a lien on the bonds held by the Central Traction company amounting to \$1,500,000; and that the lien hinders the sale of the bonds; and that street paving does not add to the value of the traction company's holdings, but rather decreases their value in that more people will walk when the streets are well paved than would otherwise be the case; and that it must be shown that street paving would increase the value of the holdings of the street railway company before the corporation can be compelled to hear a paving assessment.

The writer of this article from a positive knowledge knows that street paving in the business section of any unpaved city, and paving along the streets of which a traction company operates its road, increases travel, hence increases the value of the franchise, hence increases the value of the traction company's bonds and holdings. Have your Chamber of Commerce get the opinion of the officials of such progressive street railway companies as the Denver Tramway company and the Pueblo Traction company as to what they think of street paving in the business section of the city to up-build a city, increase travel, and reduce road and track maintenance. Also have your Chamber of Commerce get the opinion of the officials of the street railway companies of Kansas City, Omaha and St. Louis as to what they think of street paving to increase travel and reduce maintenance and operating expenses, and you will find that street railway companies favor street paving.

The writer of this article knows from personal knowledge that some of the above-named street railway companies have aided in street paving promotion because they know that street paving along the streets they occupied by franchise increases travel, especially in wet and winter weather. They have not only aided in promoting street paving along streets they occupied by franchise but have aided in the promotion of sidewalks and crosswalks in streets adjoining to the streets they occupied. The writer of this article also knows from personal knowledge that street paving companies select select streets to pave as are occupied by street railway franchise because the railway companies aid in the promotion and are willing to pay their share of the paving expense. Why? Because the paving increases their resources and decreases the road and track maintenance.

Progressive street railway companies always favor the up-building of a city in which their money is invested because they are depending on an increased revenue by an increase of the population. In fact in the past few years the grasping and unprogressive street railway companies have learned to their sorrow that their influence to stop public improvements has proved very disastrous, especially when the time came for them to renew their franchise.

The writer of this article wishes to say positively that your paving ordinance does not jeopardize the \$1,500,000 bond issue of the traction company held by the Central Traction company, and that if the street paving is carried on as outlined by your city officials that the traction company's holdings will be increased in value thousands of dollars over and above what their assessment will amount to. Hence, Judge Hart would have to show on what authority he bases his assertion that the traction company's bond issue held by the Central Traction company is being jeopardized by the street paving ordinance, and that the traction company's revenues would be decreased by having the streets of your city paved. The writer of this article would like to know from Judge Hart one single city where street paving has decreased the population, decreased real estate values, decreased the revenues of the street railway, and decreased the value of the street railway company's holdings. Or he would like to know of one city where street paving has not increased the values of the above-named holdings.

Denver, Colo., July 7.

## FROM OTHER PENS

THE JEW AND THE FLAG.

From the New York Mail.  
It cannot be that the cool minds in the Russian government realize the danger in their attitude toward the American citizen who is a Jew. Can it be that they are so stupid as to believe that they can express it in all its splendid power that it has here, and not room to Russia extravagant in language? The root idea of this republic is absolute equality before the law. There is no other doctrine, in all our constitutional concept, that is comparable

with this one doctrine. It is our life nerve. It is our very heartbeats.

Therefore, the flag protects every law-abiding American the world over. The flag knows no Jew. It only knows the American citizen. The flag never reasons beyond that. It is an American citizen? On every sea, as on every home village green, the flag means the same. Are we understood?

To understand us is a momentous thing. To understand us means taking account of our national spirit, of which it may not become us to boast. Yet the world pretty well understands it now, except possibly Russia. To understand us now needs to count our resources a feverish kind which are pledged to the maintenance of our national doctrine to the last.

In other words, we indignantly, not to say angrily, protest against Russia's distinction as to religious belief between American citizens. Such distinction we do not ourselves make at the ballot box. Nor will we brook it made wherever our American citizen travels under the flag.

## OUR RICHEST MAN IN THE MAKING.

From the Springfield Republican.  
Our distinguished expatriated patriot, William Waldorf Astor, now a British subject, has been buying more real estate in New York city. His aggregate real estate possessions in the metropolis figure up to \$300,000,000. He may be the richest man in the world within 10 years, and perhaps he is already.

## THE OPPOSITE EFFECT.

From the Pittsburgh Dispatch.  
If the reduced rates filed by the express companies were, as assumed, intended to stop the anticipated investigation of the express business by the Interstate commerce commission and the threatened investigation by Congress, as well as heading off the movement for the establishment of a parcels post, they will have just the opposite effect. This voluntary reduction affects but 10 per cent of the express business and merely provides the necessity for action looking toward the correction of the other 90 per cent.

The reduction filed affects chiefly, it is understood, the business that has to be handled by two companies. At present such companies makes its own charge, so that the packages really pay local rates. Under the new rule there will be a through rate about 15 per cent less than the present double rate. But as the bulk of the express business is handled by one company this leaves that service unaffected, except in a few instances, where special reductions have been made.

The investigation to be conducted by the Interstate commerce commission will examine the proposed rates, as well as those in effect, and determine whether they are reasonable, and if not, they will be reduced. Incidentally it is expected that the inquiry will be so thorough as to develop information that cannot fail to give a very energetic impetus to the movement for the establishment of a parcels post.

## VAN STONE MAKES 'SIZZLE'

THE LEAD BATTERS, 10-7-11

With Lenny Van Stone pitching stellar ball and his teammates slugging like fiends, J. J. Coughlin's Sox took the Catbirds of Denver down the line yesterday afternoon at Zoo park to a score of 10 to 6. Although Van Stone allowed one home run, he whiffed 10 men and allowed but eight scattered hits. Counts, the Sox third sacker, got five hits out of five times at the bat and fielded his position almost perfectly, missing but one ball, a mile high twisting foul just outside the third base line. Out of 10 times at the bat in two games, Counts has made seven hits.

The Catbirds fielded better than any team that has been here this season, having a wide margin in this department over the Zoo infield. When Van Stone is hit in the infield, by a right-handed batter, the hit is usually a hard drive to the second sack. Friel, who held down second for the Sox, took every chance that came his way and made some pretty stops even though he was unable to get the ball to first in time to catch the runner.

The Sox hit hard, and for the first time this season were able to connect with the ball when hits were needed.

Van Stone Beats Old Rival. As in college ball, Van Stone showed his supremacy over Bailey in the game yesterday afternoon. Although the Catbirds are touted as a bunch of stick artists, they were unable to deliver the goods when Van was on the mound. Sidons behind the log played a heady game and proved a close second to his pitcher.

The game started with a zip. Chadwick, first man up for the Catbirds, whiffed. Good made first on Friel's error, and then Graham and Bailey went out. Friel to Reilly. For the Sox, Warbritton was hit in the head by Bailey. Then, with a man on base and one man out, Sidons' drive was nailed by Cummings, and Hastings' pretty one over second was caught by Graham.

How Scores Were Made. In the second, Mesch drew a pass. Cummings fanned and Steck and Selzer both singled, scoring Mesch. Wrigley fanned and Chadwick went out. Friel to Reilly. Counts, for the Sox, whiffed a liner over second base. Friel was hit by the ball and slatted. Reilly was hit by the ball and slatted. Reilly, scoring Counts. Score, 1 to 1.

In the third, both teams blanked. With two men on bases in the fourth, Chadwick whiffed out a homer, scoring three runs. Then, with two men out, the Sox came back. Gail made first on Graham's error. Warbritton hit over short, and Sidons connected with one that was good for two bags, and scored his teammates. A moment later, on a wild throw, he annexed home.

Cleveland Trims Phillies. Cleveland shut out Philadelphia, 1 to 0, Krapp and Morgan pitching great ball, the former holding Philadelphia to two hits until the ninth. Morgan allowed only one hit up to the seventh.

Score: Cleveland.....01000000-1 R.H.E. Philadelphia.....00000000-0 K. and P. Fisher; Morgan and Thomas.

Two-base hits, Fisher; bases on balls, off Krapp 5, Morgan 4; struck out, by Krapp 5, Morgan 1.

Boston Shuts St. Louis. ST. LOUIS, July 9.—Boston hit the local pitchers hard and had little trouble winning the third game of the series. Hooper and Lewis featured with the bat.

Score: Boston.....03012030-9 R.H.E. St. Louis.....10100010-3 K. and P. Cioetto and Williams; Nelson, Hamilton, George and Stephens.

Two-base hits, Austin, Cioetto, Hooper, Lewis; three-base hits, Hooper, Shotton; home run, Lewis; bases on balls, off Nelson 2, Hamilton 1, Cioetto 2; struck out, by Nelson 1, Hamilton 1, Cioetto 4.

Ford Wins for New York. CHICAGO, July 9.—Ford pitched superb ball against Chicago and New York won, 5 to 2. The locals were both started by errors. The visitors bunched hits off Young, Dougherty, while at bat, disrupted Egan's decision, and was ousted from the field.

Score: Chicago.....10000010-2 R.H.E. New York.....03100001-5 K. and P. Young, Walsh and Sullivan; Ford and Sweeney.

Two-base hit, Chase; three-base hit, Ford; home run, Cree; bases on balls, off Young 3; struck out, by Young 1, Ford 6, Walsh 3.

Detroit Loses in Ninth. DETROIT, July 9.—Mitchell, Detroit's left-handed recruit, started a game in the major league for the first time today. He developed wildness in the ninth, and, with two out, Willett was called in to Washington. Then pounced out three runs and won.

Score: Washington.....00000200-5 R.H.E. Detroit.....01000000-0 K. and P. Johnson and Henry; Mitchell, Willett and Stange.

Two-base hits, Crawford, Delehanty, Stange, Schmidt; home run, Crawford; bases on balls, off Johnson 2, Mitchell 6, Willett 1; struck out, by Johnson 5, Mitchell 2.

## Robbins-Whitewash

Yr. Blossom's Hose

The hitting of Fowler, James and Fuller for the Robbins was the feature of the game yesterday afternoon at Roanoke park when the Robbins settled a long-standing feud between the two teams by defeating the Black Sox with a score of 9 to 4.

The game was rudely interrupted in the fifth inning when Deputy Sheriff Barro arrested the two stars of the Black Sox, the Flice brothers, on the charge of contributing to juvenile delinquency. Weakened by the loss of the two men, the Sox went up in the air for one inning and the Robbins garnered six runs.

On next Saturday afternoon the Robbins will play a team of traveling Sioux Indians on Washburn field.

The box score yesterday was:

**REMARKABLE DOCUMENTS**  
From the Youths Companion.  
Last month, for the first time in nine years, the original copies of the Declaration of Independence and of the constitution of the United States were taken from the archives of the state department at Washington and looked upon by a few officials. The constitution is in a good state of preservation, but the declaration has suffered sadly from the ravages of time, and especially from the process of copying to which it was subjected in 1852. Even the famous bold signature of John Hancock is now barely legible. Both of the precious documents are most zealously guarded, and have not been open to public inspection for many years.

**FORCED FROM SECULSION**  
From Washington Evening Star.  
"Why did you decide to come out of hiding?"  
"Ah, my friend," replied the ex-dictator, "you have never tasted of fame! What satisfaction can there be in remaining hid when the public no longer displays the slightest curiosity as to your whereabouts?"

**E. HIBBARD WITHERELL RETURNS FROM DANBURY, TEX.**  
Mr. Witherell reports the Gulf coast of Texas in a very prosperous condition, and informs us that they have had sufficient rains to raise a splendid crop. Corn was nearly matured when he left Texas. Watermelons and cantaloupes had been shipped out from the Gulf coast, as many as five trainloads a day, of from 21 to 40 cars each.

**PEANUTS** are getting to be a very profitable crop in Texas, and they are looking fine. In September there will be a large acreage of cabbage put out as well as full potatoes, and with ordinary rainfall, either the cabbage or potato crop will pay the farmer or trucker from \$100 to \$300 per acre. Mr. Witherell is very much enthused over the prospects in the Gulf coast country. He says the immigration to that country is simply wonderful, and insures the outcome to be higher prices for lands, and that Danbury is now in a prosperous little town, with good school, good stores, nice homes and everything showing an air of prosperity.

Mr. Witherell will return to Texas, on one excursion each month with land buyers. His first trip will be August 1st, the first excursion day in August. On account of his making a trip to Texas each month he will not open an office downtown, but will have his office at his residence, 1311 North Wabash avenue. His phone number, commencing Tuesday, July 11, will be Main 724. He will be pleased to see any one thinking of going to Texas. See Mr. Witherell's Danbury ad on another page.

## UMPIRE ROW WITH MINES OVER MAY HAVE TO CHANGE RULING

The first battle in the conference this spring has been fought. When the baseball season opens tomorrow in Golden between the Tigers and the Mines, C. L. Webb will umpire, and thereby hang a tale.

Last season "Dutch" Harper served as umpire for most of the C. C. games and as the indicator handler at the famous Mines-Tiger game at Golden in which the Tigers won out in the ninth when Coach Rathgeb substituted Joe Hughes for Jackson with the score tied, none out and two men on base. The Mines were badly disappointed and when it came to selecting an umpire for tomorrow's game, they objected to Harper.

At the last meeting of the conference a ruling was passed which provided that if two institutions to meet in any branch of athletics did not agree on officials 10 days before the game, that a conference committee consisting of three faculty members other than the schools involved, should select the officials. The rule did not appeal to Colorado college and Prof. R. H. Motten, the C. C. member, voted against it and cast the only negative vote. Little did he believe that the Tigers would be the first to have the occasion to use the rule and that he, as the new president, would have to name the committee.

The Mines suggested Means for their umpire for the coming game. The Tigers objected. The Tigers suggested Harper. The Mines objected. With such conditions, Prof. Motten, head of the conference, named the arbitration committee to handle the matter in accordance with the laws of the organization. This committee selected Harper and Webb. The Mines, knowing the Mines' objection to Harper, agreed to Webb. Then the Mines refused to accept Webb.

After much use of the telephone it was finally agreed by the Mines to accept Webb as umpire, although neither school knows anything about him.

The Colorado college officials believe that the ruling is inadequate and that many disputes over officials may come up in this manner. It is probable that an effort will be made to change the ruling.

## COVEY TO MEET U. S. "PROFESSH"

NEW YORK, N. Y., April 9.—George F. Covey, the Englishman who at the professional court tennis championship of the world a few weeks ago to Jay Gould, American amateur champion, will meet Jack White, professional of the New York tennis club, here April 12. Covey will concede White half 15.

## BLACKBURN REENTERS RING; WANTS MATCHES

PHILADELPHIA, April 9.—Jack Blackburn, who is considered one of the greatest boxers that ever donned gloves, is now open to meet any heavyweight in the country, with Mike Gibbons preferred. After an absence of five years Blackburn made a successful comeback here last week when he outclassed Tommy Howell, the hard hitting local welterweight.

## TOMMY MURPHY IS ON HIS WAY TO SAN FRANCISCO, WHERE HE EXPECTS TO MEET WILLIE RITCHIE, SHOWING WHAT A GREAT LITTLE OPTIMIST HE IS

San Francisco, Calif., April 9.—Tommy Murphy, the Irish-American boxer, is on his way to San Francisco, where he expects to meet Willie Ritchie, showing what a great little optimist he is.

## TIGERS AND TERRORS TO STAKE SEASON TOMORROW

Collegians Meet Mines at Golden and High School Plays Central at Washburn Field

College and high school baseball squads were out yesterday, after nearly a week's vacation, due to the weather and the coaches speeded up their teams in preparation for the opening games of the season, which will occur tomorrow. The Tigers will go to Golden tonight for the pre-off game with the Mines, while the Terrors will meet the Central high school team of Pueblo here at Washburn field.

The Tigers are in good condition for the game. The team, so far this season, has shown good form, and, with Jackson in shape for flinging service, should win from the Golden nine, which is said to be weaker than last year.

Nothing is known of the Central team, which will oppose the Terrors. The locals have been unlucky in their practice, and but little is known of the team strength. The material is high class, but how it has been developed will not be known until it has some chance to show its strength.

## GOLF, TENNIS AND POLO DATES ARE ANNOUNCED

State Golf Championship at Denver Country Club Course, Aug. 20 to 22; Tennis, Aug. 31 to Sept. 5

DENVER, April 9.—The Colorado state golf championship will be decided on the links of the Denver Country club, August 20 to 22 inclusive, according to an announcement made today.

The annual polo tournament of the Denver Country club is set for August 24 to 31 and the state tennis tournament from August 31 to September 5.

## PRINCETON ACCEPTS NEW STADIUM, SEATING 41,000

PRINCETON, N. J., April 9.—The Palmer Memorial stadium was officially accepted by the board of trustees of Princeton university today. The stadium will be built of reinforced concrete in the shape of the letter "U" and will seat about 41,000 persons.

## ANOTHER WAR ON WITH FEDS OVER PITCHER

### HAMILTON JUMPS FROM AMERICANS TO KANSAS CITY FEDS

San Johnson Says He'll Spend Every Dollar to Keep His Man

ST. LOUIS, April 9.—The first battle in the war declared between "organized baseball" and the Federal league was staged today and the younger league retired the victor with an American league pitcher added to its ranks and an American league catcher is said to be on his way to join the Federals.

Earl Hamilton, a left-handed pitcher for the St. Louis Americans, departed today for Kansas City in company with George Stovall, manager of the Kansas City Federal team. Tonight, Clemens, catcher for the St. Louis Americans, announced he would depart for Chicago, but he would neither admit nor deny that he had joined the Chicago Federal team.

Rumors that at least half a dozen other St. Louis major league players had been considering Federal league offers were rife tonight. The battle was precipitated last night by the sudden arrival in this city of Stovall, C. C. Madison, attorney for the Kansas City Federals, and a third party who was said to represent the Chicago Federals.

"You can say for me," Robert Lee Hedges, president of the St. Louis Americans, said, "that President Johnson, the American league, the national commission and organized ball in general, will never permit Hamilton to play with the Kansas City Federals."

Hamilton signed a three-year contract with the legal Americans last year. Clemens was a new man with the Americans. He came from the Western league.

CHICAGO, April 9.—The American league is ready to go to war with the Federals over Earl Hamilton, pitcher of the St. Louis Americans who jumped to the Kansas City Federals today, according to San Johnson, American league president.

"The American league will stop Hamilton if it takes every dollar in the treasury," Johnson said tonight. "He had signed a contract with us for three years."

Johnson left for Cincinnati, O., tonight after a conference with L. D. Reeves, secretary of John K. Tener, president of the National league. Reeves will leave tomorrow for St. Louis.

KANSAS CITY, April 9. Manager George Stovall of the Kansas City Federal league club and Earl Hamilton, who left the St. Louis Americans today, arrived here tonight.

"I am getting twice the salary I got in St. Louis," Hamilton said. "I'm tired of playing for glory."

Manager Stovall said his club would guarantee Hamilton's salary whether Hamilton played this season or not.

ST. LOUIS, April 9.—Earl Hamilton, left-handed pitcher of the St. Louis Americans, jumped to contract with the St. Louis Americans today and left for Kansas City with Manager Stovall of the Kansas City Federals.

Hamilton had a three-year contract with the local Americans and had played one season with them. Before leaving for Kansas City, Hamilton said he laid his offer from the Kansas City Federals before President Hedges of the St. Louis Americans and gave him a chance to meet the terms. This, he said, Hedges refused to do.

CHICAGO, April 9.—George Stovall, manager of the St. Louis Americans, was made with the sanction of President Gilmore of the Federal league, Gilmore said today.

"Organized ball tried to wreck Stovall's club and took away Blandish and Baumgardner, who had signed legal contracts with him," said Gilmore. "Therefore I gave the Kansas City club permission to deal with members of the St. Louis team who they had signed contracts of and not thus give it a chance to build up again."

If organized ball goes to court over Hamilton and the courts give him back to the Browns, then the same decision will return Blandish, Baumgardner and Hogue to us. Besides Hamilton, there are four or five members of the St. Louis Americans wanted by Stovall and he has my full sanction to get them if he can."

Gilmore did not credit a story that Shortstop Morgan had deserted the Pittsburgh Federals to join an American association team. He expects to go to New York tomorrow on league business.

## YOUNG PUGILISTS SPOIL CAREERS BY STARTING TOO EARLY

Grasping Managers Match Youthful Boxers Against Experience

Few Are Developed Enough to Stand Strain of Hard Ring Contests

By RAY C. PEARSON.

There is one line of athletic endeavor in which it is poor policy to start too early in life and that is pugilism. There have been boys who have started out when they were 16 years old, only to wind up their professional careers in dismal failure shortly after they had reached the age when they are allowed to cast a vote. Still the ambition of youth continually leads these "kids" to enter the game, and aided by managers who care for nothing but the "kale," they make the fight which results in disappointed hopes.

When a boy 16 years old starts to mingle in the boxing game, which all must admit is a tough proposition at the best, he is going up against something that requires more than the average youngster of that age possesses. If at that age he really shows that he has the earmarks of a good boxer, as did several boys, such as Johnny Coulton, the bantamweight champion of Chicago, and "Pat" Moore, the once-cruiser Philadelphia kid, it is the surest thing in the world that some fox of a manager is going to find it out pretty quickly and form a business alliance with him.

Grasping Managers a Menace.

Just as soon as the "kid" has a manager it is another sure thing that his pilot is going to seek the game that is tough for the simple reason that the money is there. Almost any sport where big "kale" is to be gained requires stamina, and the boxing game is no exception. The "kid" is no longer permitted to "waste his time" with others of his own age in the gymnasium or in other training stunts, and the next picture shows him going up against the boys who "have it on him" by many years.

If the youngster stacks up against any of the second or even third-rate millers in his class, he is doing something that should not be asked of him. Sometimes he is returned a winner and sometimes he is beaten.

Physical Development Not Complete.

It is not natural to expect that a boy of 16 years should be able to fight the battles of men. In the first place his physical development at that age is far from complete. It is just the time when any healthy youngster is growing at his best, and when such a thing as making weight for a bout is a greater handicap by far to him than it is with a boxer who has reached the age of 21 or when he is supposed to have jumped the obstacle that separates boyhood from manhood.

That is not all that is to his disadvantage by any means. The growth of his brain has been in the same proportion as that of his body, and naturally he is not fortified mentally to cope with boys whose development of gray matter has reached a much more advanced stage.

THE COLOMBIAN TREATY

FRIDAY, APRIL 10, 1914

JOHN M. BRANNAN COMPANY  
100 Broadway Building  
New York City

DO YOU want to find out how much  
easily there is in nature? Do you want  
fresh evidence of the revivifying effect of  
Colorado air? Do you want to hear the  
chorus of the birds? Do you want to know  
how bright is the sun? Do you want to know  
how grass and trees and flowers just wake  
up from their winter sleep? And are you  
not so full that you can't get away from  
town?

IT SEEMS it is not enough for the  
United States to make itself the laughing  
stock of the nations in Mexico, "Grape  
justice diplomacy" has prepared still another  
humiliation for America. The proposed  
treaty with Colombia is an admission to  
the world that we were wrong, and Co-

lombia right in the matter of the Panama  
Canal negotiations. But the abject ac-

knowledge of our crime as Wilson  
and Bryan see it is not the only not the  
worst grievance we are compelled to do.

We must pay over to Colombia \$25,000,000  
good American dollars for rights for  
which we have already paid Panama.

Can Wilson cram this further nauseous  
mess down the throats of patronage-seek-

ing Democrats? Of course the argument  
will be made not publicly, but privately

that it's "good politics," that it will put  
Roosevelt "in bed," and practically brand

as treachery his negotiations with Panama.  
But all that was threshed over at the

time. And the American people, and the  
American Congress overwhelmingly upheld

the President. Colombia, thinking it had  
the United States at its mercy, thought to

hold it up, just as any highwayman would  
do. But the holdup injured the province

of Panama far more than Colombia. So  
Panama revolted and Roosevelt dealt

HOW WE FOOL OURSELVES

BY RUTH CAMERON

It is a wise mind that knows its own motive.  
How often we sincerely believe that we are

in great need of a rest, and then we are sur-  
prised to find that we are not.
